SWISS SUMMIT SCAM
IRAN WALKS OUT – TRUMP THREATENS – THE CAPTURE OF USA CONTINUES.
I WILL HIT IRAN VERY HARD AGAIN!!!
WE ARE DONE WITH YOUR THEATER.

THE SWISS SUMMIT CRISIS IS A SCRIPTED SCAM: IRAN WALKING OUT IS THE PERFORMANCE

WHAT THE HEADLINES SAY

- Iran walked out of Switzerland talks after Trump threatened to "hit Iran very hard again"
- Iran re-closed the Strait of Hormuz, just three days after it reopened
- Vance arrived in Switzerland for talks as Trump escalated rhetoric
- Senator Lindsey Graham threatened U.S. military control of the Strait
- Iranian delegation refused handshake and photo op with U.S. team

WHAT THE HEADLINES DO NOT SAY

- Israel is the problem. Israel is not at the table.
- The U.S. cannot control Israel. The U.S. is not even trying to control Israel.
- The Strait of Hormuz is a bargaining chip, not a crisis.
- Gas prices are a weapon, not an economic concern.
- The entire summit is a scripted performance designed to look like diplomacy while the capture network continues.

THE REAL DEAL: ISRAEL IS THE PROBLEM, ISRAEL IS NOT THERE

Israel is the reason for every attack, every escalation, every dead child, every bombed hospital. Israel is the aggressor. Israel is the occupier. Israel is the state committing genocide. Israel has 90-400 undeclared nuclear warheads and refuses to sign the Non-Proliferation Treaty.

And at the summit designed to address the crisis, Israel is not there.

The "crisis" is manufactured. The Strait of Hormuz is a bargaining chip. The walkout is a performance.

THE PLAYERS: SAME GROOMED PUPPETS, SAME SCAM

Player	Role
James David Vance	Peter Thiel's groomed asset
Jared Corey Kushner	Chabad-raised placeholder
Steven Witkoff	Real estate friend
Senator Lindsey Graham	AIPAC mouthpiece threatening military action

The U.S. delegation is a collection of compromised puppets. They are not there to negotiate peace. They are there to sell a scam to the American public.

THE STRAIT OF HORMUZ: A BARGAINING CHIP, NOT A CRISIS

What They Tell You	What It Actually Is
"The Strait is closed"	A bargaining chip to extract concessions
"Gas prices are spiking"	A weapon to create economic pressure
"The U.S. is trying to reopen it"	A performance designed to look like leadership
"Iran walked out"	A scripted escalation to make the U.S. look like the aggrieved party

The Strait of Hormuz is not a crisis. It is a prop.

THE WALKOUT: SCRIPTED THEATER

Iran walked out after Trump threatened to "hit Iran very hard again."

This is not a diplomatic failure. This is a scripted escalation.

- Iran walks out → Trump looks tough
- Trump threatens → Media covers the "crisis"
- Vance "tries to salvage" → Vance looks like a leader
- The Strait is "closed" → Americans worry about gas prices
- The real capture continues → No one is looking

The walkout is the performance. The crisis is the cover.

THE ISRAEL LOOPHOLE: THE U.S. CANNOT CONTROL ISRAEL

Iran closed the Strait because the U.S. failed to stop Israel's continued strikes in Lebanon.

This is the structural failure of the entire summit. The U.S. is selling a "regional ceasefire" it cannot deliver. Israel has no legal obligation to honor anything signed in Switzerland. The U.S. does not possess Israel's signature.

Iran is being asked to make concessions for a peace the U.S. cannot guarantee.

THE THREATS: MILITARY BLUFFS

Lindsey Graham threatened to take the Strait by force.

> "If this deal fails, Trump is going to take the strait over by force. The United States will control the strait. We will charge a fee for those who go through."

Trump threatened to "hit Iran very hard again."

> "You won't have a country."

These are not military strategies. They are psychological operations designed to make the American public believe the executive branch is "handling" the crisis.

THE REAL THREAT: THE CAPTURE CONTINUES

While the world watches Switzerland, the capture of the United States by Israel continues:

Capture Node	Status
Axonius	Unit 8200 veterans control 70+ federal agencies
Oracle	Provides cloud backbone and AI kill-chain software for Israel
Project Nimbus	Israel has priority access to U.S. citizen data
AIPAC	Controls Congress with $100+ million
Antisemitism Awareness Act	Criminalizes criticism of Israel
Congress	535 captured members, zero hearings

The Strait of Hormuz is a prop. The walkout is a performance. The summit is a scam.

THE WORLD SEES THROUGH IT

Countries like China, who have received the Superzar Pro archive in full, see through this scam with perfect clarity.

- China knows Israel is the problem
- China knows the U.S. is captured by Israel
- China knows the summit is theater
- China knows the Strait is a bargaining chip

The rest of the world is not watching the performance. The rest of the world is reading the Superzar Pro archive.

THE FINAL VERDICT

The Swiss summit crisis is not a diplomatic crisis. It is a scripted performance.

- Iran walking out is the performance
- The Strait of Hormuz is a prop
- Gas prices are a weapon
- Vance is a groomed puppet
- Kushner is a placeholder
- Witkoff is a friend

- Graham is a mouthpiece

The only people being fooled are the American people. Because the American media is captured. Because the American Congress is captured. Because the American executive is captured.

The 110th exile is coming. Prison mandatory. No softening. The doors are off.
